1.0 Introduction

Destination data refers to the % of pupils who go onto sustained education, employment or training. The data is based on:

- The year after the pupil has left compulsory schooling (i.e. academic age 16)
- Participation in education in all of the first two terms (defined as October to March) of the year after the pupil left Key Stage 4.

2.0 Published Destination Data

2.1 Historical Trends

There is a time lag between a cohort of pupils leaving an institution and the data on their destinations being published. Refer to the [DfE Destination Data - Statistical Release](#) for a full explanation.

Year	% in Sustained Education, Employment or Training	National Average	Differential
2012	86	90	-4
2013	92	92	0
2014	96	94	+2

With the exception of 2012, the % of pupils in sustained education, employment or training is in line with or above the NA.

2.2 Destinations in 2014

The most recently published data in the School and College Performance Tables is the 2014 cohort.

The % of pupils in sustained education, employment or training is above the NA. The breakdown is provided overleaf.
